## Prize Winners at Big Shoot.

Following is a list of the prize winners at the Thanks-giving shoot, held by the local rifle club:

The first event was the shoot in which about 25 fine fat geese changed hands.

R Wood, sweater  
W Graden, sweater  
Lawrence Zilliox, sweater  
G Schadeck, set silver spoons, sack of flour

Mr Dennil, flashlight  
Mr Lundy, pearl-handled knife  
The above prizes had been donated by Mr T J Hardwick, Mr Joe Miller, Oppertshausen & Sons, W Kelly, Miller's Garage, Stony Plain Hardware, Johnson-Walker (Edmonton).

The results of the shoot for the silver cup donated by Northwest Brewing Co. is in abeyance until all scores are in.

Money donated by King Edward hotel manager was used in purchasing 4 fine rocking chairs. These were won by L Zilliox, T Graden, F W Yeats, R Wood.

The Jas Ramsay Co. prize was split, and was won by M McKinlay & R Wood.

## Heinrich's Busy Day.

The young lady walked into the hardware store, looked around, and apparently didn't see what she wanted, so stepped over to the good-looking young clerk at the counter, leaned over and whispered in his ear: "I'd like a little oven!"

The youth looked surprised, blushed and replied: "Excuse me, lady, I'm rather busy just now. Give me your phone number, and I'll see what I can do."

## LOCAL NEWS.

Mrs J H Lory is in Vancouver, this week, attending the golden wedding celebration of her parents, Mr and Mrs W H Clarke.

Mr R Speakman, a former business man of Stony, was a visitor in town on Saturday.

Geo Ashmead, J Kelly and G Davis returned, Saturday, from a three-months' tour of Saskatchewan.

Mrs A Krauser, of Stony Plain, was united in marriage on Thursday, November 10, to Mr J Schauer, of Burdall, Sask. The ceremony was performed in Edmonton, by an official in the Vital Statistics office. After the ceremony the couple left by train for the bridegroom's farmstead near Burdall. Mrs Krauser had been a resident of Stony Plain for several years.

A movie-picture show is billed for Wudel's hall on Thurs. Nov. 17.

The cold weather Friday night did not deter a good crowd from attending the Novelty dance in Wudel's hall given by the Girl's club.

There will be R. C. services in the town hall Sunday morning next at 11.

Saturday morning's train from Vancouver was 4 hours late.

Oh Friday of next week (Nov. 25) Auctioneer D Brox is holding a sale for Mrs S Hraleczuk. On the following Monday (Nov. 28) Auctioneer Zucht will hold a sale for Mr Conrad Spady at Bright Bank.

The Armbruster Co. is getting in, this week, another consignment of that famous Mile 5 Calspur coal. Those who have used this coal won't burn any other.

The junior hockey players of the town and district organized on Friday night last, and elected Giles Clarke as president; Gordon Willis as Secretary, and Henry Trapp as Treasurer. A committee was appointed to secure the necessary outfit and arrange for games with other junior teams. Another meeting will be held tomorrow (Friday) evening.

The Editor was the recipient, on Saturday, of the gift of a hunk of venison from Mr John Staub. While on his way to school the other morning, his young son noticed a buck browsing by the wayside a short distance ahead, and ran home to inform the padre. Fortunately, John had provided himself beforehand with a B. G. license, so he grabbed his trusty shooting iron off the shelf, stalked the deer, shot it, and now has its haunches adorning his store-house.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M M Mecklenburg, eye specialist, will be in Stony Plain on Friday, Nov. 25th.

Over 30 years the same good tea.  
Now packed in Aluminum.

# RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good.

## Manufacturing In The West

The general impression of the prairie provinces of Canada held throughout the Eastern provinces and in other countries is that they are almost purely agricultural, and that manufacturing is practically negligible and, where carried on, is on a small scale and local in character. No doubt many Western people if asked for information on the subject would express much the same opinion. Nor would such a view have been very wide of the mark a comparatively few years ago.

Within recent years, however, a marked change has taken place, and manufacturing along many lines is now an important feature of Western activity. Not only is this the case but development along industrial lines is proceeding at a pace which is a surprise to people who take the trouble to investigate. The extent and rapidity of this growth is only realized when actual official statistics are studied and comparisons made from year to year.

The gathering and compilation of statistics of this kind is slow and laborious work, and considerable time must of necessity elapse before all returns from many industries are obtained and classified. Latest available figures, therefore, are always for a period of one or two years back. Recently the Dominion Bureau of Statistics issued a report on the manufacturing industries of the prairie provinces for the calendar year 1925, comparing them with the figures for 1924. The growth indicated in this twelve month period is quite remarkable and most encouraging.

For the year 1925 the number of manufacturing industries reporting was practically the same as for 1924, but the gratifying fact is disclosed that these industries substantially increased their capital, employed many more workers, largely increased their wage bills, utilized larger quantities of materials, produced many more millions of dollars worth of goods of all kinds, and operated on a much more profitable basis.

Capital invested in manufacturing industries in Manitoba, Saskatchewan and Alberta increased by \$14,000,000 during 1925, and at the end of that year amounted to \$221,775,000.

The number of employees increased by over 6,000 during the year with the result that no less than 27,178 people are now engaged in some form of manufacturing industry on the prairies. To these 27,178 people salaries and wages were paid aggregating \$42,827,000, or nearly eight million dollars more than in the preceding year.

Materials used by the several industries during 1925 had a value of \$141,892,000, or an increase of over \$21,500,000 over the preceding year.

Through the application of labor and the use of these materials, goods having a gross value of \$239,352,000 were produced, or an increase of \$35,541,000 over 1924. In other words, the prairie provinces in 1925 turned out on the average twenty million dollars worth of manufactured goods per month, or three million dollars per month more than in the preceding year. The net value of 1925 production was \$97,459,000, or \$14,000,000 greater than in 1924.

Analysing these figures to some extent, it will be seen that manufacturing industry in the west, after paying \$21,500,000 more for materials, and \$8,000,000 more in salaries and wages, increased the net value of production in the one year by an amount equal to the total increase in the amount of capital invested. Certainly a most encouraging showing.

Those who are familiar with western conditions, and the decided improvement which has taken place within the last two years, know that the growth in western industry disclosed by these figures between 1924 and 1925 has been further accelerated between 1925 and 1927. Recent water power and other developments in all three prairie provinces, and the decided increase in interest both at home and abroad, in the natural resources of the West, give confidence that in a few years more the industrial activities of the prairies will be a factor of importance in the economic life of the whole Dominion.

### Cut In Canada's Debt

Has Been Reduced \$78,500,000 In Seven Months Ending October 31

Canada's net debt dropped \$78,500,000 during the seven months of the fiscal year ending October 31. In the same period, when compared with the corresponding seven months of last year, total revenues of the Dominion increased nearly 20 millions.

Of the twenty millions, ten were in greater revenue from taxes.

Customs duties are up eight millions; income taxes, six millions; revenue from excise duties is up five millions, but revenue from excise taxes (sales, stamps, etc.) is down nine millions.

All advertising in Constantinople except that in daily and weekly newspapers, has been taken over by the city, which will control it hereafter.

Pictures composed of small pieces of wall paper are a new fad in Europe.

## Cuticura Promotes Permanent Hair Health

Shampoos with Cuticura Soap, with light applications of Cuticura Ointment when necessary, tend to free the scalp of dandruff and minor blemishes, and to establish a permanent condition of hair health.

Sample Box Free by Mail. Address: Canadian Depot, "Star," Montreal, P.Q. Free, Box 50, "Ottawa" and St. John's, N.S. Cuticura Shaving Stick 25c.

### May Broadcast Storm

Warnings From Greenland

Messages Could Be Sent To Ships Two Days In Advance

From the summits of "Greenland's ice mountains," weather prophets soon may be able to broadcast to the world warning of coming storms which work havoc in the Atlantic ocean lanes and the temperate zones generally. This is the hope of Prof. William H. Hobbs, head of the University of Michigan scientific expedition who started for home aboard the *Leviathan* today after ten weeks studying the northern storms at the place of their beginning over the great ice gap of interior Greenland.

The expedition spent the summer at Kangerlussuaq fjord, within the Arctic circle.

"It is probably the longest fjord in the world and affords wonderful scenery on a majestic scale which has been seen by few white men," said Professor Hobbs.

The Hobbs expedition established three observation stations 100 miles apart, one of them being on the summit of Mount Evans. From the observations made at these stations it is planned to radio forecasts of coming storms over the north Atlantic 48 hours in advance of the storm arrival over the ocean lanes.

Selected members of the University of Michigan's expedition will winter in Greenland and will send out observation balloons with small instruments for meteorological study. Two members of the party will spend the winter in a snow cave on the island for the purpose of making observations. Stakes have been placed and measurements taken for the study of glacier movements.

### TONE UP THE BLOOD

AND NERVES NOW

Dr. Williams' Pink Pills Have No Equal For This Purpose

Anemia, or lack of good blood causes not only pale faces and white lips; it is the root of many pains and miseries. It is the cause of shattered nerves, headaches and backaches, and the always tired feeling from which so many women and girls suffer. To regain new health and strength the blood should be enriched through the use of Dr. Williams' Pink Pills. This medicine has brought new health and strength to thousands of weak and despondent people.

Among those who have found new health through the use of this medicine is Mrs. J. F. Murphy, 2055 Ship Harbor, N.S., who says:—"I bless the day I heard of Dr. Williams' Pink Pills. Before I began their use I was in a run-down and very weak condition. The least exertion would leave me breathless and tired out. Houses at night, and at times, I felt very despondent. A friend advised me to try Dr. Williams' Pink Pills and I got six boxes. I had not been taking the pills very long until I began to improve in health, and continuing their use they restored me to my former good health. I also gave the pills to my daughter, who was anemic and run-down with the same good results. Now I always have the pills in the house, and would not like to be without them."

"Get a box of Dr. Williams' Pink Pills from your druggist today, or send 50 cents to Dr. Williams' Medicine Co., Brockville, Ont., and a box will be sent you post paid. A little book, "Building Up the Blood," which explains the treatment, will be sent free on request."

Have Abolishing Death Penalty

The German province of Hesse has abolished the death penalty. Henceforth, when a Federal Court sentences any defendant in Hesse to death, the provincial minister of justice must commute the penalty to life imprisonment.

To safeguard the child from damage that worms cause, use Miller's Worm Powders, the medicine par excellence for children. These powders will clean the system entirely of worms, will regulate and stimulate the organs injuriously affected by the worms, and will encourage healthful operation of the digestive processes. As a vermifuge it can be relied on for its effectiveness.

The cannibal tree of Australia, like a giant pineapple in appearance, is credited with power to entrap and crush anyone touching its leaves.

Minard's Liniment for Neuritis.

W. N. U. 1707

To break a cold harmlessly and in a hurry try an Aspirin tablet. And for headache. The action of Aspirin is very efficient, too, in cases of neuralgia, neuritis, even rheumatism and lumbago! And there's no after effect; doctors give Aspirin to children—often infants. Whenever there's pain, think of Aspirin. The genuine Aspirin has Bayer on the box and on every tablet. All druggists, with proven directions.

## Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacturers. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

### Declaring War On Narcotics

Working Fund Of Five Million Dollars Urged At Conference

Formation of a world narcotic defence association with a working fund of five million dollars, was urged at the first session of the conference of committees of the World Conference on Narcotic Education and the International Narcotic Educational Association at New York.

The association would be non-profit making and would have the power to utilize "all honorable means" to attain the mobilization of the resources and vitality of society everywhere against narcotic drug addiction and to acquire and maintain immunity from this universal social menace.

Two million dollars of the five million to be sought, Captain Hobson explained, would be used in hospital work; another two millions used in educational work, while the remaining million would be set aside for law activity.

"Rastus, your dog seems to be in pain."

"No, such—he ain't in pain; he's just lazy."

"But he must be suffering or he wouldn't be like that."

"Jes' plumb lazy; jes' laziness; he's settin' on a thistle."

Useful in Camp.—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

Record Of Stunt Airman

Flying upside down from Cologne to Bonn, a distance of twenty miles, in a biplane, is the record of Herr Pfleider, the German "stunt" airman. He was escorted all the way by a pilot in a second plane.

### To Control Canadian Thistle

Possibly one of the easiest and surest methods of controlling Canada thistle is to put the land where possible into alfalfa. The frequent cutting of alfalfa and thistle tops over a period of years will starve the thistle root and result in complete eradication of this very undesirable perennial weed.

## Short of Breath Dizzy, Sinking Spells COULDN'T WALK FAR

Mrs. L. A. Oliver, Granville Ferry, N.S., writes:—"A few years ago I had dizzy, sinking spells so bad I could hardly stand up without taking hold of something to support me, and I could not walk any distance on account of being so short of breath."

"I had taken a lot of doctor's medicine, but it did me no good, only for the time being, so reading in the B.B.B. Almanac about

I decided to try them and found them to be just what they are recommended to be, and I feel that I owe my life to them."

Price 50c. a box at all druggists and dealers, or mail direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Increase in Air Mail

Colonel Chas. A. Lindbergh's flight to Paris last May so stimulated public confidence in aviation that since then the United States air mail poundage has increased over fifty per cent. William P. McCracken, assistant secretary of commerce for aviation, says:

For all pains—Minard's Liniment.

Women are a puzzle problem. The men can't get along with them, or without them; and yet are not content to leave them alone.

Sold in generous size bottles by all dealers. The J. I. Mathieu Co., Props., Sherbrooke, P.Q. Mathieu also of Mathieu's Nerve Powder for Headaches, Neuritis & Neuritic Colic.

# Canada's Indian Population Now Mostly Self-Supporting And Is No Longer a Liability

A widespread belief that the Indian population of Canada is decreasing is an error, as there are 161,534 in the Dominion and official records show little variation from decade to decade. Incidentally the total number of Eskimos in Canada is 5,703.

Although there are no millionaires among the "Redskins," the Federal Department of Indian Affairs here holds \$13,500,000 in trust for them. This huge sum is derived from the sale of lands, timber and other sources.

Tom Longboat, the famous copper-colored marathon runner, Dr. Oronhyatekha, founder of the Independent Order of Foresters, and Pauline Johnson, Canada's late beloved Indian poetess, were probably the most famous descendants of the first inhabitants of Canada.

While these three were outstanding in their particular field, it remained for 4,000 young braves to bring further glory to their tribes while serving in France with the Canadian Corps.

A majority of the Indians of Canada are Christians, although there are 6,146 who cling to their aboriginal beliefs. Religiously they divide as follows: Anglicans, 23,557; Baptists, 1,373; Methodists, 13,920; Presbyterians, 2,375; Catholics, 12,771; and other Christian beliefs, 1,227.

The Indian is very law-abiding, except when he gets a "skinful" of "fire-water," which has the effect of restoring him to the primitive. Incidentally, it is a breach of the law for an Indian to have liquor, and persons selling it to him are heavily punished.

The Indians of Canada are self-supporting. The young brave today is abandoning hunting and fishing for agriculture through the efforts of the Department of Indian Affairs in its educational program.

Canada's Indians realized nearly \$3,000,000 last year from farm produce. The hunters and trappers realized \$2,215,962, while those who worked for wages earned \$2,457,070. Only in the northern and outlying districts of the Dominion is the brave depending on hunting and fishing for his livelihood.

The ancient tribal customs of the Redskins are slowly passing out. Western Indians still enjoy their sun dances, but any dance which entails mutilation of bodies or the giving away of presents is strictly forbidden and stamped out.

War paint, tomahawks and the old time regalia of the brave are outlawed on state occasions, when a Royal Prince or Governor-General is made an honorary chief of a tribe or when a distinguished visitor is the guest of the tribe.

While tuberculosis still continues to be the chief menace to the health of the Indians of Canada, the population has not decreased in large numbers, due perhaps to the large families. The survival of the fittest was long the law of the Redskins, but today the square is learning to go to a hospital when a papoose is coming.

The Indian's holdings on reserve is exempt from seizure for debt. When it comes to elections a brave has the right to cast his ballot in the eastern provinces. In the west the brave can acquire citizenship—thus he ceases to be an Indian and is no longer protected or restricted. Education among the Indians is on the increase as the total enrolment at 247 Indian schools is more than 10,000.

Above all, the Indian is not a liability to Canada, and it is predicted will more than take his place in his native land.

## Health Education Pays

Constant education in matters of hygiene and sanitation, along with the increasing advance of medical science, has almost completely wiped out of our civilization the plagues which devastated cities and villages in olden times. Likewise, by careful living and preventative measures, we are building up greater individual resistance to disease.

Wife: "Every time you see a pretty girl, you forget you're married!"  
Hubb: "You're wrong, my dear. Nothing brings home the fact more forcibly."

W. N. U. 1707

## Of Interest To Canadians

Dictionary of National Biography Contains That Of Sir Wilfrid Laurier

That monumental classic, the dictionary biography, upon the founding of which the noted publisher George Smith expended his whole life and fortune, was enriched recently by a 600-page supplementary volume embracing the years 1912-21.

Among the biographies of special interest to Canadians is that of Sir Wilfrid Laurier.

Next in importance perhaps comes the sketch of Lord Strathcona, written by Prof. Wron's son, Edward Murray Wron, vice-president of Magdalen College, Oxford University.

Prof. W. L. Grant, principal of Upper Canada College, is responsible for the biography of Sir Charles Tupper in the dictionary. He produces a compressed but easy recital in which he describes Sir Charles, one of the Fathers of Confederation, as "perhaps the most fearless and constructive statesman whom Canada has produced."

Prof. Grant has also written about General Sir Sam Hughes, who he handles judiciously. After noting Sir Sam's fine energy at the opening of the war, he remarks:

"He was responsible for arming the Canadian forces with the Ross rifle, which afterwards was replaced by the Lee-Enfield rifle. He was of splendid energy, had much personal charm, but was too undisciplined and impetuous to be an easy colleague, either political or military."

## Had No Airport Facilities

And People Of Ottawa Missed Seeing U.S. Dirigible

The flight of the United States airship Los Angeles from Lakeshore, N. J., to Ottawa, with Sir Philip Sassoon, British Secretary of State for Air, on board, was abandoned, because the Canadian capital lacks suitable airport facilities. Thus the people of Ottawa missed the opportunity of seeing aloft a great dirigible, similar in type to the two now being built in Great Britain. Certainly the Los Angeles, moving steadily through the air at an amazingly slow speed, with the sun shining on its torpedo-shaped metal hull, must be an impressive spectacle.

## Dairy Factories in Canada

A report recently issued by the Canadian Government Bureau of Statistics shows that in 1924 there were 3,074 dairy factories in Canada, an increase over the preceding year of 62 and an increase over the year 1914 of 141. Of the 3,074 factories in operation last year, 1,247 were creameries; 1,411 cheese factories; 350 combined butter and cheese factories and 26 condenseries.

Miss Margaret Irving, the only woman tea-taster in Great Britain, tastes three hundred samples of tea every day.

## PLEASED TO MEET YOU!

"Pleased to meet you!" really meant something when Canada welcomed these young Englishmen to her broad acres. A flock of potential farmers never landed here. They were photographed outside the Canadian National Railways station at Winnipeg, where they broke their journey to Vermilion, Alberta. The young men will study Canadian farming methods at the Alberta Government's agricultural farm at Vermilion, and when they get farms of their own they will be fully qualified to handle them. They are between sixteen and twenty years of age and come from all parts of England, most of them from farming stock.—Canadian National Railways Photograph.

# Indications Point To Belief That Hudson Straits Are Open To Navigation Longer Than Expected

## Many Losses From Hail

Prairie Provinces Visited By Severe Storms This Year

Losses from hail in the Prairie Provinces are heavier this year than in any year since 1921 according to figures furnished by the secretary of the Canadian Hail Underwriters' Association. The heaviest storms were on July 8th, July 20th, August 5th, 13th, and 15th. Between June 15th and September 14, there were only two days (July 2nd and July 5th), when hail did not fall somewhere in the prairie provinces. In Saskatchewan premiums amounted to about \$3,500,000 while losses totalled approximately \$2,600,000, an increase of more than \$1,000,000 being received in premiums by the 13 companies operating in the province. Of the 52 companies, 23 lost money on the year's operations, while 13 broke about even, and the balance made a small margin of profit.

Only five of the 51 companies operating in Alberta made a profit, while three broke about even on the year's business, the rest losing money, an added. Premiums in Alberta totalled \$2,600,000, against which the losses aggregated approximately \$4,100,000.

Manitoba's experience was favorable, premiums totalling \$170,000 and losses about \$175,000, said Mr. Campbell. Two companies received no claims for hail losses. One company had losses amounting to \$7.06 per cent. of its premium income.

## A Quaker Poet's Ruse

Whittier Had Clever Way To Outwit Sightseers

Like Tennyson, John Greenleaf Whittier, America's quaker poet, had an equally keen distaste for mere sightseers. Once two women, seeking in Amesbury for his house, stepped into a grocery store to inquire their way. The shop assistant, with an odd smile directed them; but one, who had noticed the smile, asked if he thought the poet would see them, adding in a quishing manner, with clasped hands, "He simply must! We've never away till he does. There are ever so many things we want to ask him." The assistant glanced toward a shadowy corner, where a number of customers, all men, were gathered, village fashion, round a tall figure, seated on a barrel. They had all been talking politics, but had ceased at the woman's question. "Think he will see them?" asked the assistant. "Well," replied the man on the barrel, "I know Greenleaf does not find it easy to refuse a lady. I think perhaps he will—if he is at home." But when the too elusive woman called, needless to say, "Greenleaf" was not at home. He was still contentedly sitting on the barrel, talking politics.

The opening week of November finds the Hudson Straits without a vestige of ice in sight, and with a minimum fog, says an Ottawa report, dated Nov. 7. Each day the marine experts of the department of marine and fisheries, at Ottawa, are more astounded as the radio reports from the sleds who are patrolling the 450 mile stretch of the straits in airplanes every day declare that there is, as yet, no obstacle whatever to navigation.

"It is really very remarkable," said one of them, "and we are very much puzzled. It begins to look as if the straits are open to navigation many weeks longer than anyone suspected. It may be, indeed, that the ice does not enter the straits until February. The slow ice usually starts drifting south in that month. Of course, we cannot be sure. All our preconceived ideas about the straits have been disturbed."

This official pointed out that the fact that there is as yet no ice in the straits indicates that in 1927, at any rate, navigation will be open much longer than the St. Lawrence River, where the last slip clears about November 15. The straits are from 40 to 100 miles in width and it is inconceivable that if ice commenced to appear now, it could block the channel in two weeks, or even a month.

The absence of fog, too, is a great surprise to other officials. Fogs always occur at this time of year on the St. Lawrence. In the last ten days several ships have cleared from Montreal and made the entire trip to the Atlantic ocean without being able to see farther than a ship's length in any direction. These ships navigated by radio direction and avoided collisions by using the straits. This fact so pleases the officials that in all probability an official statement will be issued.

## Would Hard Times Affect Automobiles

Difficult Now For People To Get Along Without It

The extent to which the automobile, in its double function of utility and luxury, has affected America socially, economically and industrially is amazing. It has changed it from almost any point of view. So rapid has been the change that the community has by no means been able to adjust itself to it. It will be years before the highways are reconstructed to meet conditions and they never can be made fully to meet them. As for the effect on retail business, not even yet has the trend become clear. Socially, of course, as in recreation, the effect of the automobile has been profound, but on the whole American life in many phases is still in a transition period. Not the least interesting subject, in case the country should have a severe dose of hard times, would be the effect on the automobile.

## Lesson Was Hard

The world was a long while learning the way to play the game together, but the great mass of humanity had little property, little leisure and hardly any liberty until the method of co-operation was adopted. There is a lot of injustice and wrong left in the world still, but that exists merely where the ideals of the system have not been observed.—Detroit News.

Half the garage equipment in Lublin is from the United States.

"Why have they arrested him?"  
"Because he left the fan so late."  
"And they arrested him?"  
"That's true. They're taking him into safe custody to prevent his wife battering him!"—Musketeer, Vienna.

# Treat Colds 2 Ways

**With One Treatment RUBBED ON THROAT AND CHEST, VICKS DOES TWO THINGS AT ONCE:**  
 (1) It is vaporized by the body heat and inhaled direct to the inflamed air passages, and  
 (2) It stimulates the skin like an old-fashioned poultice and "draws out" the soreness.

**VICKS VAPORUB**

## WORLD HAPPENINGS BRIEFLY TOLD

The Japanese cabinet has decided to cease positive encouragement of emigration. Hereafter the government will confine its efforts to emigrants already abroad.

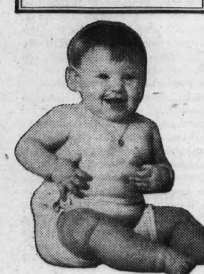

The United States has more military pensioners in Canada than in every other foreign country put together. There are 1,422 residents of Canada at present drawing pension from the United States treasury. They receive a total of \$601,389 a year.

Two interesting parcels of freight have left Vancouver port, being cargoes of lead in each case, one for Central America and the other for Buenos Aires—both destined for the same use, that of making arsenate of lead for the combating of insect pests.

Major Mario de Bernardi, Italian flying ace, attained a speed of more than 300 miles an hour in his hydro aeroplane test on the Venice Lido course, smashing all existing records for speed in the test, the Royal Aero Club of Italy stated.

Tom Moore, president of the Trades and Labor Congress of Canada, has returned to Ottawa from Berlin, where he attended the meeting of the governing body of the International Labor office attached to the League of Nations.

## The BABY

Why do so many, many babies of today escape all the little fretful spells and infantile ailments that used to worry mothers through the day, and keep them up half the night?  
 If you don't know the answer, you haven't discovered pure, harmless Castoria. It is sweet to the taste, and sweet in the little stomach. And its gentle influence seems felt all through the tiny system. Not even a distasteful dose of castor oil does so much good.  
 Fletcher's Castoria is purely vegetable, so you may give it freely, at first sign of colic, or constipation, or diarrhea. Or those many times when you just don't know what is the matter for real sickness, call the doctor, always. At other times, a few drops of Fletcher's Castoria.  
 The doctor often tells you to do just that, and always says Fletcher's. Other preparations may be just as pure, just as free from dangerous drugs, but why experiment? Besides, the book on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold!

## Children Cry for

W. N. U. 1707

## Claims New Device Will Eliminate Static

"Monophone" is Invention Of Retired U.S. Army Officer

Announcement that he has perfected the "monophone," an instrument designed to carry radio into the home over the telephone or electric light wires, was made by Major-General George O. Squier, retired former chief signal officer of the U.S. Army. The general claims the device will eliminate static, aid the radio communication by clearing wave bands and provide, a double use for power and telephone lines now in operation.

The device is virtually a three tube receiving set without dials, "stepping up" attachments, batteries or amplifiers. According to General Squier, it would utilize the same lines that now supply current to homes for ironing and lighting without interfering with their present purpose.

The monophone could be connected only to the station or "net" operated or used by the companies leasing the instrument. Buttons would control the instrument for frequencies and there would be no dials to change stations.

## Removes Touchy Corns, Brings Solid Comfort

Acts like magic—takes out all the pain—makes aching corns feel comfy in a few seconds. That's how Putnam's Corn Extractor acts. You will not be disappointed with "Putnam's"—it never fails to lift out corns, or remove painful callouses. Get "Putnam's Extractor" from your druggist. Refuse a substitute.

The Baby's First Short Clothes

When baby is ready for short clothes mother will be happy to find this combination pattern, No. 1174, which contains a short coat, with or without cape, short jacket and bonnet. Just everything for "bye-bye" land. The simple coat is made with a yoke, that always adds a little graceful touch to the straight line. The round collar gives a tailored finish and is cut for comfort. The cape adds warmth for the cool days. It may be sewed in one piece with the collar to the coat, or made and used separately. For the cool days and warm evenings, when just some light wrap is wanted, the simple little jacket will set in sleeves will quite answer every need. The pattern, with a ruler that is becoming to every baby's face, fits nicely by the use of small plates at the neckline. Cut in one size, and requires 2 1/2 yards for the entire outfit. Price 35c the pattern.

Minard's Liniment for Distemper.

**LESSON No. 16**  
**Question: Why do growing children, particularly girls, need emulsified cod-liver oil?**

**Answer:** Growing children, and particularly girls, need vitamin-rich nourishment to help them through critical stages of extreme tax on their strength.

Pleasantly flavored, easy to take, children like **SCOTT'S EMULSION**

Travelled First Class

Apen Taken From Nice To Vienna To Be Used In Clinic

Eleven autographed copies, travelling as first-class passengers, have arrived at Vienna from Nice on the Simplon Orient Express. Each was accompanied by a special attendant and seemed to enjoy the luxury of travel on Europe's best express. The contentment of the apes was short-lived, however, for they were taken to the clinic of Dr. Serge Voronoff. There they will submit to a painful gland operation in order to restore the buoyancy of youth to octogenarian Austrians who wish to add another spell of years to their lives.

## MADE HER BABY PLUMP AND WELL

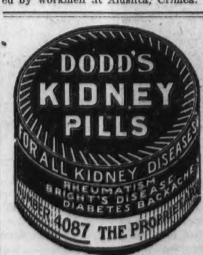

Nothing makes a mother more grateful than a benefit conferred upon her child. Mothers everywhere who have used Baby's Own Tablets for their children's ailments, in enthusiastic terms of them. For instance, Mrs. Zepherin Lavolo, Thrice Rivers, Que., writes: "Baby's Own Tablets are a wonderful medicine for little ones. They never fail to regulate the baby's stomach and bowels, and make him plump and well. I always keep a box of the Tablets in the house and would advise all mothers to do likewise. Most of the ordinary ailments of childhood arise in the stomach and bowels, and can be quickly banished by Baby's Own Tablets. These Tablets relieve constipation and indigestion, break up colds and simple fevers, expel worms, allay teething pains and promote healthy sleep. They are guaranteed to be free from injurious drugs and are safe even for the youngest and most delicate child. The Tablets are sold by medicine dealers or by mail at a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**Railway Extension in Peace River**  
 Inaugurating the first freight and passenger service over the newly completed Pembina Valley Railway, the branch line of the E.P. & B.C. from Peace River to Peace River, Peace River District, a distance of 25 miles, the first mixed train left Edmonton recently.

**Nation-wide Fame.**—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is a case of the world's most efficient remedies for sore throat, larynx laceration and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

## Unearth Old Water System

A water system in perfect order and capable of carrying a daily flow of 300,000 gallons, believed to have been built by Genoaese colonists eight hundred years ago, was recently uncovered by workmen at Alaska, Crimea.

## SUNDAY SCHOOL LESSON

NOVEMBER 20

MICAH CHAMPIONS THE OPPRESSED

Golden Text: "He hath showed thee, O man, what is good; and what doth Jehovah require of thee but to do justly, and to love kindness, and to walk humbly with thy God."—Micah, 6:8.  
 Lesson: Micah, chapters 2, 3, 6 and 7:1-6.

Devotional Reading: James 1:23-27.

## Explanations and Comments

1. The Creed of the Wealthy and their Punishment, 2:1-3.—"Woe to them that devise iniquity and work evil upon their beds!" cries the prophet. "When the morning is light, they practice it, because it is in the power of their hands." Micah is here arraiving the wealthy classes. He charges them with lying awake at nights to plan and plot evil—how to get the better of the poor—and with carrying out their schemes when daylight comes, because they had the power. They believed that might makes right.

"They covet fields, and seize them; they have seized the vineyard, and houses and take them away; and they oppress a man and his house, even a rich man, because they have the power." The prophet does not detail the steps of the process of seizure—through foreclosure or through the sale of the property, interest, bribery of judges, and the like. No legal procedure can make right in Micah's eyes the fact that his poor brethren are being ousted from their homesteads by the grasping rich; compare 1 Kings 21; Hosea 5:10; Micah 2:2.

"Therefore thus saith Jehovah," solemnly the prophet asserted: "Because ye have despised my word, the family of Israel do I devise an evil." While they were devising evil, verse 1, Jehovah was devising a punishment, the prophet declares, and punishment from which there would be no escape. "For it is an evil time," the time was evil, for men were living as if God were not, and evil was threatening in the Assyrians who were advancing victoriously westward.

"They devise iniquity against their fellows; but Jehovah devises evil against them. This is ever so, and the evil which God devises against the deviling of iniquity, is ever the outworking of that very iniquity in its reaction upon the evil workers. There is no escape from God, and that is the reason of confidence, and the secret of peace, in the days most full of the apparent triumph of evil men." —G. Campbell Morgan.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

## South Africa Proud Of Aviator's Feat

Bentley Made Solo Flight Of 8,100 Miles in Tiny Moth Plane

When brought into comparison with some of the epoch-making flights to the credit of Lindbergh and other airmen, the significance of the recent breaking flight from London, which has ended at Cape Town, is apt to be lost by the thrilling-loving public.

A wildly enthusiastic welcome at Wynburg, airmen, Cape Town, marked the culmination of an 8,100-mile solo trip over sea, desert and the forests of Darkest Africa, made by an intrepid little South African aviator named Lieutenant Bentley on a tiny Moth aeroplane provided for his use through the enterprise of The Johannesburg evening newspaper.

A particularly notable feature of this lone flight on a machine with a motor of only 40 horsepower is that it was completed in twenty-eight days, whereas Sir Pierre van Ryneveld, who blazed a pioneer trail from Cairo to the Cape in 1920 (and used two machines in his effort), took forty-four days to reach his goal, while Sir Alan Cobham's flight in 1925 occupied ninety-four days.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Exterminator.

## Has Horn Between Antlers

Some curious prank of nature has given one of the deer in Yosemite national park a horn like the rhinoceros. The freak growth, projects through the roof of its upper jaw half way between the nose and the eye. The deer is very tame, but disappears once a year to shed both his antlers and the strange middle horn.

Guayaquil, Ecuador, which in 1918 was considered one of the worst yellow fever spots in the world, has had a case of the dread disease since 1919, when scientists from the United States introduced methods of elimination.

Minard's Liniment for Chills.

## Plan ahead!

To enjoy Christmas in the Old Home! Christmas in England, Hogmanay in Scotland, Yuletide festivities in Ireland, are now within easy reach of everybody.

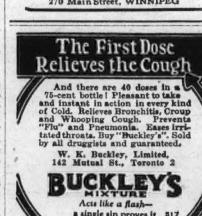

See a steamship agent to-day and make your reservation while the best accommodation is to be had.

Round Trip from \$155 up. Children half fare—everything included.

## TO STRENGTHEN LIQUOR LAWS OF PROVINCES

Ottawa.—Very important intimations, bearing upon the question of the import of liquor, both where there are liquor control boards and also where there is legal prohibition. Likewise, there was unanimity in demands for a curbing of the operation of liquor export houses.

The provinces were unanimous in their request for control of the importation of liquor, both where there are liquor control boards and also where there is legal prohibition. Likewise, there was unanimity in demands for a curbing of the operation of liquor export houses.

The announcement, which came from the Federal Government representatives, was that the bill, confining to the provinces the right to import liquor, will be reintroduced. Twice already this has been killed by the Senate.

As regards export houses, the undertaking is given that, where any province so desires, customs bonding privileges will be denied such establishments. Any such policy, if adopted on provincial initiative will put a very large crimp in the operation of export houses to which are attributed many of the abuses which have arisen in the liquor traffic.

Another proposal of the provinces was for the reduction in the excise duties on liquor. The Minister of Finance declared that the demand for increased subsidies was not quite in consonance with the demand for lower excise duties, but stated that the Government was willing to listen to reason.

There was discussion on judges and a majority of the speakers favored higher salaries and uniformity in retirement of judges but little attention was paid to the question of age. It being pointed out that some of the oldest judges were the most efficient.

## Allowed Wave Bands

### For Directing Aircraft

Canada's Right To Exclusive Bands Recognized By Radio Conference

Washington.—Canada's right to exclusive wave bands for the direction of aircraft in the Dominion, has been recognized by the International Radio Conference, and a wide band, sufficient to take care of extensive development of commercial flying in Canada has been set aside for the sole use of Canada.

When the question of communication between aircraft and ground stations was under discussion in committee, the Canadian delegates brought up the necessity for the recognition of the needs of aircraft in the Dominion. It was pointed out that in practical application of aircraft to forest protection, survey work and similar useful purposes, Canada led the world. The necessity for a clear band through which aircraft could communicate regularly with ground stations, was recognized as it had been previously recognized in Europe.

"With the additional facilities," a Canadian delegate told the Canadian Press today, "it will be possible to provide not only for the very extensive forest protection operations in the various provinces, but also for all kinds of commercial aircraft enterprises."

### Mountie Is Promoted

Ottawa.—Staff Sergeant A. H. Roy, renowned Arctic traveller of the Canadian Mounted Police force, has been promoted to the rank of inspector, according to an announcement made here. While in charge of a detachment at Pond's Inlet, he conducted the preliminary proceedings in the celebrated James case, in which British law was enforced in the Arctic.

### Desires To Abandon Flight

Berlin.—The Foreign Office has been advised by the German consul-general at Calcutta, India, that Otto Koennecke, who set out to fly to the U.S. by way of the Arctic, to fill and penniless and desires to abandon his plane and return home. The Foreign Office understands this marks the end of the ill-fated attempt.

W. N. U. 1797

## Niagara Post Office Damaged By Fire

Building Practically Wrecked By Explosion In Furnace

Niagara Falls, Ont.—Damage amounting to about \$40,000 was caused and a woman and her child rescued with difficulty when fire practically wrecked the post office building here. Twenty postal clerks and mail carriers escaped from the building but returned and managed to remove the mail to safety. Mrs. Gerrie, wife of the caretaker, and her infant child, were taken from the smoke filled building by rescuers.

An explosion, believed to have occurred in the furnaces and blowing out all the windows and doing damage to nearby buildings, started the fire.

The force of the blast broke windows in buildings nearby and one man was hurled through a doorway into the street but was not injured.

Dense clouds of smoke that filled the building prevented firemen from entering.

## Is Minister Of Railways

Geo. Spence, Maple Creek, Accepts Portfolio In Saskatchewan Government

Regina.—Appointment of George Spence, member of the House of Commons for Maple Creek, as minister of railways in the Saskatchewan government, which the portfolio held by all the ministers, except those of Hon. Dr. J. M. Uhrich, minister of public health; Hon. C. M. Hamilton, minister of agriculture, and George Spence, minister of railways, will be affected, is foreshadowed.

"It is considered important that George Spence, who has always shown a marked interest in and aptitude for railway development in the newer districts of the province, should be given an opportunity to serve in this department," said Mr. Latta in making the announcement.

## Says Debt Reduction Essential For Canada

In Order To Retain Position In World Markets Declares Robb

Ottawa.—"It was essential for Canada to reduce her debt to maintain her position in the markets of the world," Hon. J. A. Robb told the provincial premiers conference here today, warning the submission for increased subsidies. The minister of finance emphasized the tremendous obligation growing out of the war and the maturities which the Dominion was compelled to meet from time to time. Hon. Mr. Robb promised nothing beyond what parliament would see fit to do in the matter of increased subsidies.

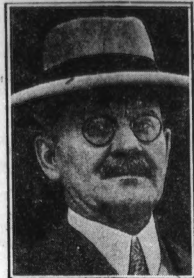

### May Bar Further Excavation

Calvo.—Germany may be reduced further permission to make excavations here in view of the dispute over the bust of Queen Nefertiti, which the Berlin Museum insists on holding. The Egyptian antiquities department demands that it be returned to Egypt.

Airships being constructed in England are expected to carry passengers to Canada or Egypt in two and one-half days, to South Africa in six and one-half days, and to Australia in twelve and one-half days.

In all France there are less than 12,000,000 families.

## Was Lone Representative

Dr. W. A. Shaulis, of Winnipeg, president of the International Association of Dairy and Milk Inspectors, was the only Canadian present when the Association met in Toronto, Ont. A resolution of regret at Canadians remaining aloof was passed.

## Receives Application For Steamship Service

Federal Government Gets Offer On Line To Fort Churchill

Winnipeg.—The following special despatch from Ottawa is given prominence by a Winnipeg paper.

"The Federal Government has been invited to enter into an agreement with a steamship company with offices in Great Britain and Montreal whereby the company will put on a regular steamship service from Fort Churchill to England and the continent in return for a concession of crown lands in the Fort Churchill area."

"Rumors of this application had been current in the capital for several days and confirmation was obtained from Hon. W. B. Mather, minister of marine. The company is the Gaspe Steamship Company, Ltd., of London, Eng. and Montreal."

## Would Make Ocean Flight

Gripped Aviator Is Fearless and Competent Pilot

Wheeling, W. Va.—Wheeling, the city that sent Ruth Elder forth in an attempt to conquer the Atlantic ocean by air, now has another aspirant for trans-Atlantic honors—an aviator with no legs and but one arm. The crippled birdman is Morris R. Daugherty, 35, of New Martinsville, near here. He has been flying for a year and is known as a fearless and competent pilot. Now he is ready to attempt an ocean flight.

### League Session In December

Geneva.—The quarterly session of the League of Nations Council has been officially convoked for December 5. One of the most important questions to come up is the appeal of Lithuania against Poland, alleging the mistreatment and arrest of clergy in the Vilna District and the removal of the schooling rights of Lithuanian children, which is declared to be threatening peaceful relations between the two countries.

### U.S. Shy On Half Dollars

Washington.—Nearly 600,000 50-cent pieces were coined last month in the mints at Philadelphia, Denver and San Francisco, and the demand is still running ahead of the supply. Officials have been unable to account for the sudden demand, except that no half dollars were made from 1924 to 1926.

## Canadian Airmen Dive Into River

Fliers Deceived By Reflection Of Lead Sky On Water

Fredericton, N.B.—Deceived by the reflection of a leaden sky on the smooth surface of the St. John River, a Canadian air craft dove straight into the river here. In the plane were Flight Lieutenant C. N. Harrop, pilot of the machine; Corporal Winthrop, mechanic, and C. Donnelly, photographer. All are from Dartmouth, N.S., air station.

Canoes, rowboats and power craft dashed from both banks of the river as soon as the crash occurred as the plane had circled several times before plunging for the surface of the river. The three aviators were all clinging to the wreck, the plane having broken up after striking the water.

The airmen were cut about the face and much bruised and suffering from shock and exposure.

## Want 10,000 Horses

Russia Ready To Place Big Order For Canadian Hags Next Year

Quebec.—Transportation of 10,000 Canadian light draught horses from Quebec to Leningrad, Russia, is the goal that has been set by the Soviet Government for the 1923 season of navigation. It was learned here, with the departure from Quebec about November 16 of the Russian steamer Dekabrist with 850 horses, a total of 3,000 of the animals will have been shipped through this port this year and in order to carry the considerably larger figure aimed at for next season, the Soviet Government will charter another steamer in addition to the Dominion.

## Federal By-Election

Polling Day, At Maple Creek Constituency Fixed For Dec. 9

Ottawa.—A federal by-election is impending in the constituency of Maple Creek, Sask., consequent upon the resignation of George Spence, Liberal M.P., who has become Minister of Railways in the Saskatchewan Government.

Will for the election fix November 25 as nomination day and December 9 as polling day.

This is the first by-election since the Conservative Party's convention in Winnipeg and the choice of Hon. R. B. Bennett, K.C., as leader.

## Winter Air Mail Proposed

Would Serve Remote Posts Which Are Practically Isolated

Ottawa.—A representative of the Canadian Transcontinental Airways Limited, is in Ottawa to confer with the officials of the Canadian Air Board in the matter of transporting mail to seven islands, Anticosti, and the Magdalen Islands during the closed winter season of navigation. The contract for this new service has already been awarded.

Hitherto these remote posts have been practically isolated, delivery of mails being entirely dependent on dog teams during the winter.

### Big Ranch Deal

Calgary.—One of the largest deals in the history of Alberta ranch property—involving more than \$750,000—was put through here, when the George Lane Company sanctioned the sale of the Bar U and Willow Creek ranches together with all livestock and equipment to the P. Burns Company.

## BALDWIN IS QUITE OPTIMISTIC ABOUT EUROPE

London.—Fulfilling the traditional role of prime minister at the Guildhall, where once a year the big business men of the ancient city of London get a review of governmental affairs straight from Downing Street, Premier Stanley Baldwin declared himself an optimist about Europe, because he is a realist.

"Great Britain, France, Germany and Italy, protagonists in the struggles of the day," he said, "now meet as equals and partners to advance the cause of peace, and they look forward to the consecration of our common civilization."

Mr. Baldwin paid graceful tribute to Aristide Briand, the French Foreign Minister, and Gustav Stresemann, the German Foreign Minister, as far-seeing leaders who rendered a rapprochement possible.

"All Europe honors them and renders them tribute," he added. "All Europe asks where next will a statesman be found with the courage of Stresemann, the broad humanity of Briand, what country in the Balkans, in Central or Eastern Europe, will first follow their example and earn like fame."

The Prime Minister wished he could speak equally hopefully about Russia. There were circumstances which led Great Britain to cease diplomatic relations with Russia, he said. There were similar circumstances which prevented the United States from ever admitting of such relations.

"Whenever the Russians are prepared to observe the ordinary decencies of international intercourse and abstain from interference in our domestic affairs and from a policy of intrigue and hostility," he continued, "they shall find us ready to meet them in the spirit of liberality and good will which inspires our whole foreign policy."

## Would Eschew Politics

United Farmers Of Ontario Will Discuss Resolution On This Question

Toronto.—A resolution calling for the abolition of the political committee and the elimination from the official statement of aims of the organization of all reference to political activity will be placed before the United Farmers of Ontario when they meet in their annual convention in this city December 7 and 8. The resolution if passed would remove the last blot of a political complexion from the organization.

The same resolution asks the association to condemn the use of the title U.F.O. by any members of the provincial or Dominion Parliaments, or any candidates for either House.

A resolution asks that a study of co-operative marketing be placed on the curriculum of rural schools.

## Making Effort To Have Sentence Changed

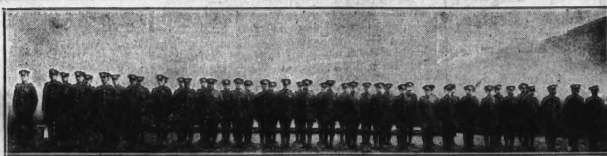

Counsel In Nelson Case Appealing To Department Of Justice

Winnipeg.—Counsel for Earle Nelson, found guilty of the murder of Mrs. Emily Patterson, are preparing to make representations to the Department of Justice for the remission of the death sentence, Nelson was sentenced to be hanged January 12. The plea of insanity which the defence offered at the trial will be the basis for the representations to be made to the executive authorities. The evidence given by defence witnesses, together with records from Napa State Asylum, California, will be forwarded to Ottawa.

They will be supplemented by X-ray plates photographs of Nelson's head. The plates were ordered chiefly for investigational purposes and were not offered in evidence at Nelson's trial.

### Are Seeking Settlement

Toronto.—T. G. Clarkson, who is one of the liquidators of the Home Bank of Canada, has confirmed that discussions are now going on with a view to settlement of the five million dollar suit brought by the liquidators against the directors of the defunct institution.

## Canadian Guard at Washington Unveiling

The Canadian Guard of honor at the unveiling in Washington of the Canadian monument to Americans who fell while serving in Canadian Units, which was dedicated on Armistice day, was drawn from the famous Royal 22nd Regiment of Quebec City. They are shown photographed at the Canadian Pacific station in Montreal en route to Toronto recently before joining other Canadian units and proceeding to Washington. The "Cross of Sacrifice" was the dedication National Cemetery by the Canadian Government. The unveiling ceremonies were of an international nature. Troops and dignitaries from Canada and the United States taking part, the monument being unveiled by the Iron Vintcent Massey, Canadian Ambassador at Washington.

## Champion Stallions of Four Countries

1. "Lord Willington," \$10,000 Clydesdale, one of the finest stallions ever bred in the Old Country. 2. W. J. McCallum, at left, about to board plane for Paris on horse-buying tour. 3. C. P. R. Freighter "B.H. Shocks." 4. "Commander of Morston," an English champion included in the shipment.

What is considered to be the finest and most valuable shipment of horses ever to reach Canada arrived in Montreal recently from England and Europe on board the Canadian Pacific freighter, Boworth and Bolingbroke. The animals are owned by W. J. McCallum of Brampton, Ont., and Regina, Sask., and represent the pick of the champion heavy horses of England, Scotland, France and Belgium, having been purchased by Mr. McCallum during a 20,000-mile motor tour of the rural areas of the British Isles and the two countries of Europe. The horses were shipped to Brampton prior to being exhibited at the Winter Fairs to be held within the next few weeks at Toronto, Chicago, Guelph and Ottawa. Some idea of the value of the large shipment, can be obtained by the fact that one of the horses included in the shipment, "Lord Willington" was purchased by Mr. McCallum for a price exceeding \$10,000. Over a quarter of a million dollars

has been invested by Mr. McCallum, in Percherons, Clydesdales, Suffolk and Belgians. His first shipment to Canada this year included 14 animals which reached Montreal in August. The owner who crossed from England this trip aboard the Metagama, personally looks after the important details in connection with the handling of his horses. Questioned as to the damage done to the horse industry through the introduction of tractors and other mechanical farm implements to take the place of horses, Mr. McCallum stated that gasoline had done all the damage to the horse industry possible. There was a scarcity of good horses in Canada and Great Britain, he said, due to the fact that the number of good horses bred had greatly decreased. He believes that the introduction of high-class animals into the country will go a long way towards stimulating the raising of better quality horses. The history of a great number of

his horses carry the record of championships won at practically all the fairs and exhibitions in Great Britain, France and Belgium. "Lord Willington," the stallion for which he paid over \$10,000, is the most valuable horse with the present lot and one of the finest horses ever bred overseas. He was the only two-year-old winning double championships in Scotland this year, being champion at the Royal Show, Newport, Scotland, and champion at the Kilmarnock Show. This stallion will go back to Scotland for breeding purposes. Mr. McCallum's up-to-date method of engaging in the horse-buying industry is borne out by the fact that he does considerable travelling by air, and he recounts many exciting incidents when forced landings were made on account of fog and stormy weather. His systematic tours of rural districts in England, Scotland and Europe are done, however, by motor during the summer months.

There will be Thru Sleepers from Principal Cities.

### Few Instances Recorded

#### Hypnotism Used Instead Of Anesthetic In Surgical Operation

Hypnotism has been used in place of anesthetic during a major surgical operation at St. Luke's Hospital Chicago. The operation, performed on a young woman, was for the removal of adhesions in the abdomen and was reported a success. She was under hypnotic control more than an hour.

While the case was under the direction of Dr. Alfred P. Solomon, of the Neurological Service, St. Luke's, the surgeon was Dr. Harold O. Jones, also a member of the hospital staff. Dr. Solomon hypnotized the woman. A member of St. Luke's confirmed the report of the operation and declined to give details, asserting its chief importance was scientific and that reviews would be prepared for medical journals and associations.

Medical authorities said the reported usage of hypnotism in surgery has prevailed for almost 75 years but that instances have been few.

Aluminum, the modern metal, has uses almost without number, a chief one being as a container for good tea, the best of all packages. All Red Rose Tea is now packed in Aluminum and we have so much faith in both the tea and the package that your money will be refunded if you are not completely satisfied.

fully unconscious of the fact that a picture of her was in the evening paper and a short summary of her career as told to an eager young reporter by Mrs. Wymuth. It said among other things that she was a girl of violent temper who had given much trouble to the Home authorities.

#### CHAPTER XII.

When the train slowed its pace above the Eagle Mines, Helmi looked down on a valley which lay like a shallow saucer, broken jaggedly but fairly down the middle by the river, which ran jade green and foaming to the plains beyond. The rim of the saucer was fluted by short lines of young evergreens running down toward the centre. The mines, three of them, looked like badger-holes of giant size, and were marked by long mounds of slag.

To the west rose the mountains, green at the foot where the forests grew, gravelly and bare above the timber-line, rising still higher into hard gray rock, scamed across like faded carpet, and at the very top tinged of snow which had run down the crevices as if it had been put on too soft by unskilled hands. The two great peaks stood staring at each other across the stream, seeming to dominate the landscape; and when the train stopped and the conductor called "Eagle Mines," Helmi could see nothing but the two giants towering high above her.

"I suppose, now, you think those two big peaks are right now, don't you?" said the conductor as he carried her valise down on the steps.

Helmi admitted that she did. "Well, don't count on going over there before breakfast, for they're twenty miles away. Walking towards mountains is a bad business. In this country—a person don't seem to be able to get much nearer. In fact, you do well if you can hold your own." Helmi thanked him, and, taking her valise, walked across the narrow platform. Looking up the river she could see far into the mountains, for the river channel is wide and its general direction unbroken.

Around the station buildings were huddled the miner's houses, all of the same pattern, all of new lumber and unpainted.

The bottom of the river, on both sides of the river, is a fertile plain of deep black loam, which in summer is covered with heavy grass and peavine, but with a river a cow to eat it, for the miners are not given to domesticity. The company which owns the mines was seized by the desire to root their men in the soil when the first mine was opened, and to this end Helmi had not laid a spade or hoe on which covers a full township of six miles square, and gave to each man who signed on for a year a tract of twenty-five acres; but so far not much success had come, for the miners when their eight hours were over had little inclination to plant or hoe. Even the mine manager, who could discourse nobly on the subject of giving the worker a stake in the country "to keep him from putting his foot through the platitudes of civilization," had not laid a spade or hoe on his own twenty-five acres of grass, nor indeed removed the pile of clay which had been excavated for the basement of his house. When a man can earn three hundred dollars a month and has a rent-free house, it hardly seems fitting that he should spend his leisure time manjuring young onions or confirming the feeble knees of epididymally young cabbage.

The trouble with Eagle Mines was that no one expected to stay. A mine may give out and who knows where the seam may end? There were outcroppings, to be sure, all around the saucer, but there were foldings, and cross faultings, and in some of the seams interbedded shale, which increased the risk and therefore raised the mining cost.

#### CHAPTER XI.—Continued

The spirit of Helmi's hard-working, soap-making, dirt-baiting grandmothers stirred at the sight before her. Her long, capable hands, covered a change to show what they could do with the travel-stained, tear-wet, much begrimed family before her, mother and all. The mother was at a low ebb—skirt crooked, belt wholly inadequate to cover the connection between skirt and blouse, hair in straggles, half not dragging from one hairpin, shoe-lace untied, stockings sagging; her shoulders drooped, and her voice wobbled.

"Let me have him," said Helmi, reaching out for the five-year-old, "I will wash." The family stopped all its activities; arrowroot biscuits were discarded; the seven-year-old, who was riding the back of a seat shouting "Ride 'em, Cowboy!" paused open-mouthed; Maudie in surprise relinquished the nut-bur, at least as much of it as would leave her hand. "I have a little wash-room of my own. There I will take him please," said Helmi. Charlie went with her without a word while the family looked on in dumb amazement. "Ma, ain't that the limit," whispered Maudie in wonder, "I thought she was a lady."

Charlie came back in due course shining from applications of soap and water. His garments were mended, his hair brushed, his ears pink as coral and shining inside and out. His clothes were straightened and brushed, and he smelled foreignly of toilet water and powder. He held a new five-cent piece in his hand, and his spirit was subdued and serene. The others were taken on one by one, renovated and returned.

### PAINS ALL OVER BODY

Two More Cases of Feminine Illness Relieved by Lydia E. Pinkham's Vegetable Compound

Barrington, N. S.—"I had terrible feelings, headaches, back and side aches and pains all over my body. I would have to go to bed every month and nothing would do me good. My husband and my father did my work for me as I have two children and we have quite a big place. I read the paper about Lydia E. Pinkham's Vegetable Compound, and then got a little book about it through the mail, and my husband sent to Eaton's and got me a bottle, and then we got more from the store. I am feeling fine now and do all my work and am able to go out around here. I tell my friends it is Lydia E. Pinkham's Vegetable Compound that makes me feel so well."—Mrs. VICTOR RICHARDSON, Barrington, Nova Scotia.

#### Dull Pains in Back

St. Thomas, Ont.—"I took four bottles of Lydia E. Pinkham's Vegetable Compound and found great relief from the dull, heavy pains in the small of my back and the weakness from which I suffered for five years after my boy was born. After taking the Vegetable Compound and using Lydia E. Pinkham's Sanative Wash, I am feeling better than I have for the past seven years, and advise my friends to take it."—Mr. F. JOHNSON, 40 Moore Street, St. Thomas, Ont. O.

W. N. U. 1707.

#### CHAPTER XII.

ed,—the mother last of all—while Helmi stayed with the sick, who sat very staid and dignified in their new state of cleanliness. Helmi went to them in English, then in Finnish, the lullaby that had been sung to her by her over-worked mother.

The conductor passing, saw with surprise the change that had come into this nest of stormy petrels, and the same thought came to him that Maudie had expressed. "There's something funny about this," he said to himself. Then he listened. He recognized the Finnish songs, having worked with Finns in the lumber-camps near Port Arthur before he went on the road. His brows corrugated and one eye was shut tight. He went to the end of the car and sat down to think it over. He read the telegram again. Then he shook his head slowly; it was curious. Just before Edmonston was reached the conductor knocked again at Helmi's door. She received him with the air of languor and the lifted eyebrows. Again she was the experienced traveler, slightly bored, but his quick eye noted that all her things were packed away. "Here is your ticket, madam," he said politely, "will you please give me back the slip I gave you. Your ticket is for Eagle Mines, I notice. A funny thing happened yesterday. Just before we reached Rivers had a wire from Winnipeg asking me to be on the lookout for a young Finnish girl who had escaped from the Girls' Friendly Home in Winnipeg. They seem to think she's on this train but I certainly can't place her. Well, if she's on board I hope she won't try getting off at Edmonton, for the police will be watching for her there, sure. She had better stay right on and get off at some little place. Now, that place you're on is quite all right, for it's on a spur-line quite away by itself, and it's the sort of place where there are a lot of people coming and going all the time, and there would be no questions asked there. I was out there one time shooting. It's a queer little backwash of a place." Their eyes met in a look of understanding. Helmi was startled, wild and questioning; his eyes, calm and reassuring, the level eyes of a kindly old conductor who has looked upon much human misery and trouble, and always to understand and help. His totally detached manner helped Helmi to recover her composure, there was something so protective and kindly in his face. In a moment she had back all her dignity and poise. "How very interesting," she said, turning to her book.

The conductor left the train at Edmonston, that being the end of his run, but he waited until the train went out. The lady in the "A" drawing-room did not appear, and the police who were waiting retired after a fruitless search among the passengers.

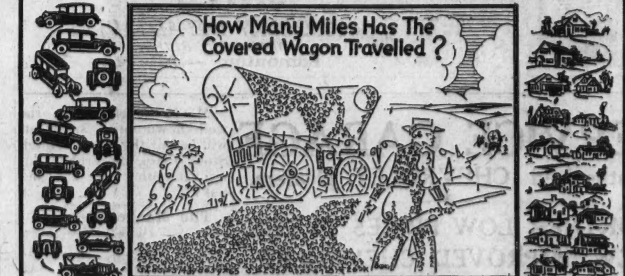

The conductor stood with his little valise in his hand watching the train, with its dull gray smoke-wreath laid well back on its shoulders, making its way westward through the yards. She is a game little girl," he said to himself, as he let down his valise, to light his pipe, "and I would just like to know her story. Well, I hope she gets a good man."

Helmi journeyed happily on, bliss-

### The Most Generous Figure Puzzle Contest Ever Offered

**378 PRIZES** and such AMAZING prizes

Here is the opportunity you have been hoping for, to win a luxuriously equipped automobile or a beautiful up-to-date Aladdin Home all ready to be erected on your lot. For just a few hours pleasant and profitable occupation in the pastime of solving figure puzzles, you will find it a fair, clean contest, free of tricks.

## Canadian Buyers Profit by Canada's Export Trade

IN the distant reaches of Britain's far-flung empire you will find General Motors cars, built in Canada by Canadian craftsmen, from Canadian materials.

In five years over 110,000 automobiles have been sent overseas by General Motors of Canada to carry the standard of Canadian quality around the world.

This represents a truly important contribution to Canada's export trade.

It represents millions of dollars to be spent in wages to Canadian workmen, in the purchase of Canadian metals, wood, hides and

the countless other materials entering into the manufacture of General Motors cars.

And it represents a greatly augmented production of General Motors of Canada, resulting in lower costs of manufacture, in economies of purchasing, in greater savings of time and labor through greater volume.

Thus, because in India, in Egypt, in Malta, Ceylon or South Africa, someone is buying a General Motors car from Canada, General Motors can offer to you, in Canada, a product of higher quality at a lower price than otherwise possible.

### Spruce Grove News

Henry Gabel, the well-known sport, was in the Grove on Tuesday, investigating the proposition of opening a pool hall and hair-cutting parlor.

There seems to be the possibility of a lawsuit as the outcome of the collision at Martin's school corner last August, when Garageman Bell and Mr. L. Schaepp had a come-together party. One of the parties is said to be contemplating starting an action to recover damages.

Grain hauling by the elevators is the popular outdoor sport at the present time; with farmers wishing for a little higher prices and a little more snow.

### Steers for Royal Show.

Many good herds of Alberta cattle will again be represented this year at the Toronto Royal and Chicago International livestock shows by steers contributed by various breeders in the province.

In the shipment which left last week for Toronto are: Aberdeen Angus, 1 from Thompson, Vegreville; Dickson & Hunter, Innisfree; Richardson, Bowden, 1; and 2 bred on University farm.

Herefords, McEachern, at Burnis, 1; University-bred 3.

Shorthorns, G. M. Thomas of Youngstown, and W. W. Sharpe of Stettler sent animals; 4 purebreds and 1 grade from University herd.

All of these cattle will be shown in various classes at the Toronto Royal, following which 9 or 10 head will go on to face the keener competition at the International, at Chicago.

Seven choice Hampshire sheep will also represent the University flock at Toronto show.
